

Wear a Flower

Create your own fancy jewellery and decorate yourself with the most beautiful flowers.

A special safety pin is mounted on 2 discrete jewellery wires and protects your skin from the needle. You can fix any kind of beautiful flower or natural materials on it.

You can also fix the flower, leaves, seeds or branches behind the decorative cover of the pin and include it into your composition. Hang your necklace straight or roll it gently into a circular shape. Never fold the wires!

www.matrigold.in

Put the pin in front and hook the earring in your ear from behind, if you want to use big flowers.

You can use the cover of the pin as a part of your composition

Use flowers, seeds and leaves
