

MatriGold – from the Heart of Auroville

MatriGold offers a divine selection of handmade jewellery items made with the same technique as the gold tiles of the Matrimandir.

Gold has been used since ancient times as an aid to spiritual growth and for adornment. Temples, sacred items and ornaments were made with gold, attracting cosmic energy and lifting the place and the wearer into a higher vibration.

MatriGold

Each piece of our Gold-in-Glass Jewellery is made by hand, giving it its unique charm. Birgitta Volz, the international artist, creates all of our designs.

Pure gold leaf (24 karat) or Sterling Silver leaf is fused between layers of glass in a vacuum process. After the fusing, the pieces are ground individually and reheated for the final shaping.

Thanks to this unique process, we are able to provide jewellery containing the purest gold for an excellent price.

A few examples of our single piece fantasy line with coloured glass on gold and silver.

MatriGold offers beautiful collections including suns, moons, ovals, squares, triangles, rectangles and many single pieces.

We create unique necklaces, earrings, pendants, rings, bracelets, hairclips, tieholders, cufflinks and chains.
